ABSTRACT (KTU)

1. GENERAL INFORMATION (KTU-BSNN)

Two sets of questionnaires will be prepared and distributed to the partner countries with same questions and style to be applied for various target groups in two different periods. Questionnaire should;

- * contain various type of questions,
- * measure level of knowledge and understanding of various target groups at different ages, cultures, areas, and origins,
- * composed by the questions prepared by the expert company with the cooperation of the project team, evaluated after discussions till 5th month of the project.,
- * be prepared in 5 languages (English, Turkish, Georgian, Bulgarian and Romanian), by partners,

Two questionnaires will be applied over face to face(or on the web due to Covid-19) negotiations after giving explanatory information to correspondents on about how they fill the questionnaire. The reason of two sets of questionnaires will measure target group perceptions during the first time and second will measure their awareness at the final stage by using same target groups as much as possible.

The questionnaire will responsible for Bulgarian partner BSNN (Black Sea NGO Network). Preparation of the questionnaire according to the different target groups, the style of the questionnaire and other important factors will be controlled by BSNN. The other partners will translate to their languages, printed and distribute to their target stakeholders. The evaluation of the questionnaire will be done by BSNN.,

2. THE FIRST QUESTIONNAIRE PREPRATIONS and RESULTS

First questionnaire survey will be conducted in the first 8 months and the data will be provided to PP6 to produce consolidated report until 31.03.2021. The report will service all partners and describe the finding at the start of the project. The outputs will be used to understand the level of perception and local problems concerning the settlement area. The number of people targeted

Project funded by
EUROPEAN UNION

within this activity is about 2000 persons (500 for each partner country, 250 for each partner in RO and BG).

All partners may answer the specific questions;

- a) What is the distribution methodology of the questionnaire?
- b) How reached targeted stakeholders (defined in the project)?
- c) The specification of the sampling area?
